

# Special solutions made for you.

We develop load handling equipment  
to meet your exact requirements.

Lifting technology | Load securing  
Height safety equipment | Material handling

# Your partner when it comes to lifting, moving and securing.

We offer comprehensive solutions and services from a single source.

With RUD + SpanSet, you benefit from more than 25 years of expertise in solutions and processes for lifting technology, load securing, height safety equipment and material handling. Being a subsidiary of the world market leaders RUD and SpanSet and a group of companies with national presence, we are always close to you.

We offer you powerful products, a high level of consulting expertise, comprehensive services and customised solutions of our in-house brands for special load-handling equipment.

Premium brands for special load handling equipment.

At RUD + SpanSet, you find a comprehensive range of load handling equipment – from standard solutions right through to custom-designed special load handling equipment. In our in-house steel fabrication facility, our experienced specialists design and manufacture innovative, customised solutions to meet your specific requirements. We bring together outstanding brands, products and services under one brand – delivering proven solutions that meet the highest standards.
